

STUDENT PARKING

Who is eligible to purchase a student parking permit?

There are 110 spots for the Senior Lot on Pond Street and 90 spaces available at the right side of Veterans' Memorial Park Beach designated for Juniors. Please register for the proper lot, based on your grade. Due to limited parking, spots are not available for other grade levels.

When do parking permits go on sale?

Students may register to purchase a season pass on **August 14th at 10:00am**, prior to the start of the school year. An email will be sent from the Principal of Sharon High School through **SWIFTK12**, part of the Power School software application, alerting the students of the registration date prior to the end of the school year. **Permits are limited.** Once permits are sold out, students must find alternative arrangements as parking is not guaranteed.

I have registered. Now how do I get my permit?

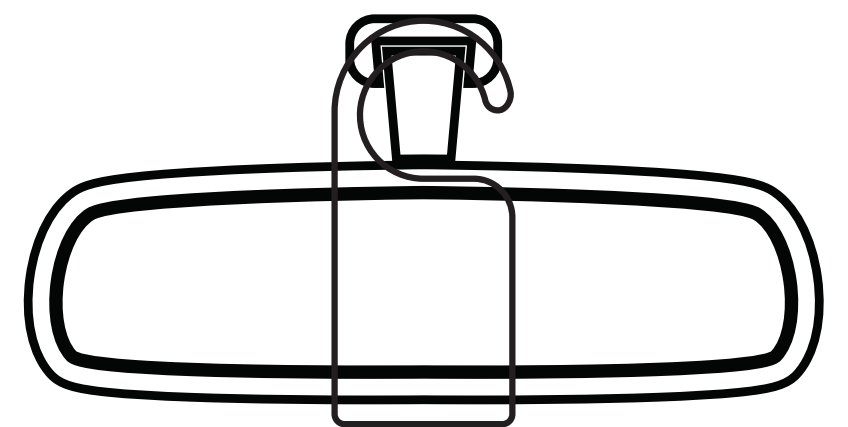

In order to register for a parking permit, you must have an account set up on **SharonRec.com**.

Permits may be picked up at Sharon Recreation Department during normal business hours. Students may **NOT** park in their designated lot until their decal is properly affixed to their vehicle.

Where do I place my permit?

Display your student parking permit on your rear view mirror when in the lot.

Violators will be issued tickets for not properly displaying permit.

What happens if I get a new vehicle?

If you need a new permit for a change of plate or vehicle, there will be a \$10 replacement fee. The old permit must be returned.

STUDENT PARKING

HELP! I have a need for a temporary permit.

If you need a temporary permit, please visit the Sharon Recreation Department during normal business hours. A temporary pass will be issued for **ONE** week, for those experiencing extenuating circumstances. Temporary permits will be \$10. Be sure have it attached to your rear view mirror when in the lot located in the same location as your decal to avoid a parking ticket.

Inclement Weather

Please note: these lots are not always plowed immediately. DPW does its best to get to it but main roads and school lots take priority.

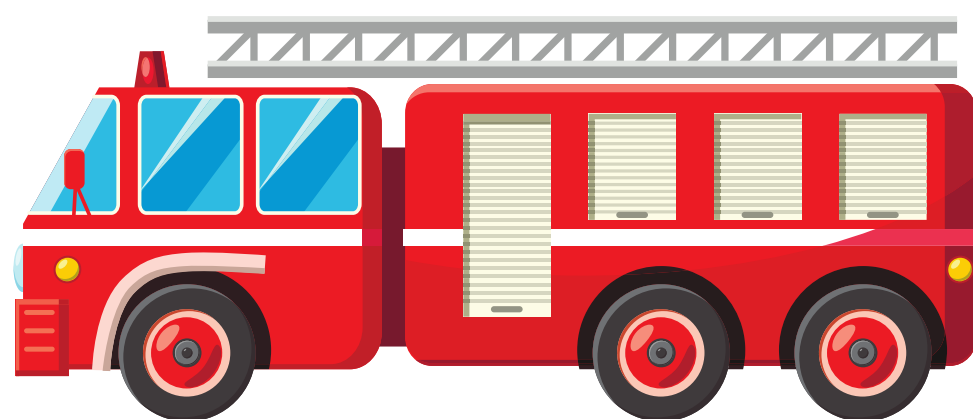

If there are no parking spots remaining, can I park on the left side of the beach or at the boat launch?

No. Parking at the Boat Launch requires a visible parking permit, year-round. Our community enjoys the beach during all seasons. Parking is limited on the left side of the lot (towards Pond Street) for up to three hours maximum. If you park in those locations, you will receive a parking violation.

Parking Restrictions

Unfortunately, we cannot pave or line the lot at this time. For safety reasons, please do not park four car widths between the grass (shed side) and first parking spot to allow access for emergency vehicles. See map below.

We appreciate your cooperation!
